Aryamaan Roy Choudhury

Boston, MA | +1 (848) 327-5240 | roychoudhury.a@northeastern.edu | LinkedIn | GitHub | Portfolio

EDUCATION

Northeastern University, Boston, MA

Bachelor of Science in Computer Engineering and Computer Science (**GPA: 3.86/4.00**) *Anticipated May 2028*

Global Scholars Program (Oakland & London) - Freshman Year *Sep 2024 – May 2025*

Coursework: Embedded Design, Cornerstone of Engineering, Algorithms and Data, Logic and Computation

Honors and Awards: Dean's List (Fall 2025), Eta Kappa Nu (Inducted March 2026)

TECHNICAL SKILLS & INTERESTS

Software: Python, C++, Java, HTML, CSS, JavaScript, OCaml, React, Next.js, Git, SQL, OpenAI API, LTSpice

Hardware: AutoCAD, SolidWorks, Autodesk Fusion 360, Arduino, Raspberry Pi, Oscilloscope, Circuit Prototyping

Interests: Recreational Soccer, Basketball, Bodybuilding, Sports Photography, Fashion and Style, Video Games (Fifa, 2K)

CERTIFICATES

Machine Learning: Crimson Data Science | Singapore International Science Camp 3D Printing, AI & ML Fundamentals

Generative AI: IBM SkillsBuild Game Changers AI and the Future of Live Sports

WORK EXPERIENCE

AdaptSkillAI, Maharashtra, India (Remote)

Software Engineering Intern *Feb 2026 - Present*

- Developing MVP features for an adaptive learning platform, translating product requirements into scalable workflows
- Implementing and testing core platform components, improving functionality and supporting scalable feature delivery
- Collaborating on student and admin workflows to refine system behavior and enhance usability and performance

StratEdge Africa, Port Louis, Mauritius (Remote)

Web Development Intern *Jan 2026 - Present*

- Designed and developed a production-ready website as sole developer, translating business needs into a live platform
- Built a responsive multi-page app using Next.js, React, and Tailwind CSS with scalable components
- Deployed and maintained the platform on Vercel, optimizing performance, reliability, and update workflows

PL4TFORM, Singapore, SG

Writer and Editor *Jan 2022 - Oct 2024*

- Promoted discourse in economics by increasing audience engagement, producing content to spark debate among readers
- Advanced the platform's economic literacy mission by raising reader understanding and creating multimedia content
- Enhanced content quality and reach by improving clarity and accuracy, self-authoring 3+ articles and editing 5+ others

Weiss Asset Management, Boston, MA (Remote)

Investment Analyst Intern *Jan 2022 - Feb 2022*

- Conducted equity research and portfolio analysis within a selective investment program focused on market performance
- Designed and presented a simulated $1M stock portfolio using MS Excel with allocation strategy and risk modeling
- Achieved portfolio returns exceeding benchmark by 2-3% using Monte Carlo simulations and scenario analysis

ENGINEERING PROJECTS

Dream League Soccer Player Analytics System, Self-Developed (GitHub)

Software Developer (Data Analytics Project) *Mar 2026 – Present*

- Built a modular Python ETL pipeline to process player data, compute normalized metrics, and generate ranked outputs
- Designed a role-based scoring system with weighted metrics and reliability adjustment for fair player evaluation
- Engineered a similarity-based prediction module to estimate player performance, validated against updated datasets

Supplement Recommender, Self-Developed (Team Project, GitHub)

Software Developer (Open-Source Project) *Jun 2025 – Sep 2025*

- Contributed to a full-stack supplement recommendation app using React, Node.js, and MongoDB for personalized plans
- Integrated API-based recommendation logic using OpenRouter to generate user-specific supplement suggestions
- Implemented frontend components and UI flows using React and Tailwind CSS to support user interaction and usability

LEADERSHIP AND EXTRACURRICULARS

Northeastern University Oakland, Oakland, CA

Student Programming Board *Sep 2024 - Dec 2024*

- Managed event logistics, including scheduling, promotion, and coordination to ensure smooth execution of 2+ events
- Collected and analyzed student feedback to improve programming quality and guide future event planning
- Collaborated with fellow elected students to plan and execute events, increasing student engagement and participation

EcoHarmony, Edison, NJ

Head of Outreach *Oct 2023 - Apr 2024*

- Led outreach and communications for a 150+ member sustainability organization, increasing engagement by 15%
- Directed content creation and digital initiatives to promote sustainability awareness and community involvement
- Developed and maintained a tracking system recording over 18,500 lbs of recycled materials across initiatives
